Jovino Monterde

Frontend Developer

I'm a dedicated frontend developer who enjoys creating user-friendly and visually appealing web experiences. With over 2 years of experience, I've been fortunate to work on a variety of projects, including single-page applications and e-commerce platforms, continually learning and growing along the way.

Experience

- February 2025**
PSPACE I Remote
Front-End Web Developer

Built the PSpace application from scratch as a Frontend Developer. Implemented UI and dynamic data rendering using JavaScript and Jinja by consuming backend APIs. Collaborated closely with designers and backend developers.
- March 2024 - August 2024**
Lolita Heights Hotel I Tacloban City
Property Management System(PMS)

Built a Property Management System using React.js and Material-UI (MUI). Developed features like Check-in/Check-out, online booking, employee scheduling, payroll, and biometric attendance tracking. Designed responsive UIs, integrated RESTful APIs, and collaborated with backend teams to optimize performance. Delivered a scalable, user-friendly solution that enhanced operational efficiency.
- May 2023 - May 2024**
Mimnu I Australia
Front-End Web Developer

My role at Mimnu, an e-commerce site, I am responsible for designing each webpage with a strong emphasis on creating interactive and engaging user experiences. Additionally, I ensure that these designs are seamlessly integrated into a mobile-responsive format, guaranteeing optimal functionality across various devices and enhancing the overall usability of the website.
- November 2022 - May 2023**
Telmo Solution I Tacloban City
Front-End Web Developer

Take design mockups and translate them into clean, responsive, and pixel-perfect web interfaces. Write well-structured HTML, CSS, and JavaScript code to ensure smooth integration with backend systems.
- September 2016 - December 2021**
Concentrix I Quezon City
Security Control Officer

 - Monitor and review electronic door-access badge records to identify AWOL, resigned, and terminated call-center agents attempting to enter the premises, and immediately report any unauthorized access attempts.
 - Activate access badges for agents or employees upon receiving verified and approved access requests from the designated approver, ensuring correct access levels are assigned.
 - Maintain and operate surveillance and security monitoring systems, ensuring continuous observation of all critical and sensitive areas.
 - Identify, assess, and report suspicious or unauthorized activity, promptly alerting authorities or security teams during potential security breaches.
 - Prepare accurate and detailed incident reports, documenting access violations, security events, and technical issues.
 - Perform routine inspections and maintenance of security equipment, ensuring all monitoring devices and access-control systems function properly.
 - Work collaboratively with security teams, facilities, HR, and management to support a safe, secure, and well-coordinated working environment.
